

## Your path to short-term cost savings, long-term results

Within just 8 weeks, you can unlock as much as 5% in annual cloud savings. Learn how. Contact us today.

## Optimizing existing use of cloud

was the top 2023 cloud initiative with organizations estimating that 28% of their cloud spend is wasted.\* Enterprise organizations are looking for ways to optimize their cloud costs in a repeatable, scalable way and accelerate time-to-value in reducing their future, monthly cloud bills.

\*Flexera 2023 State of the Cloud Report

## FinOps is designed to help you manage your cloud costs - but organizations still struggle with key challenges

Enacting cloud cost  
changes at the  
engineer level.

Organizational  
adoption of  
FinOps practices.

Implementing FinOps  
governance and  
policies at scale.

## FinOps Accelerator by Stratascale

Our 8-week FinOps Accelerator identifies and maps a short-term path to rapid, cloud savings while laying the foundation for lasting change to your cloud cost management practices.

## How it works

Using our FinOps Accelerator, you can answer this need with a healthy "jump-start" to more efficient, economical cloud usage.

The Accelerator offers a compact, 8-week service that delivers great initial value as well as significant, bottom-line impact to your future cloud bill.

Over the course of 8 one-week sprints, the FinOps Accelerator service targets your unique cloud environment using the dual lens of Apptio Cloudability and our Stratascale FinOps experts.

Leverage the powerful capabilities of Apptio Cloudability (a FinOps Foundation Certified Platform) for reporting, allocation, and optimization. Using Apptio Cloudability, you can quickly find and realize savings—all while Stratascale helps you with plans, designs, dashboards, and reports to drive your custom FinOps program.

## Deliverables

8 weeks of Apptio Cloudability + Stratascale consulting and engineering resources to address found waste

### Optimization reports

- Cloud waste (idle, abandoned, and oversized)
- Reservation and Commitment purchasing

### Assessment & mapping of:

- Cloud spending
- Business units & cost centers
- Tags & labels

### Future-state design & roadmap for:

- Governance, idle & wasted resource process
- Resource right-sizing process
- Resource reservation process
- Program KPIs and implementation roadmap

## Why choose the Stratascale FinOps Accelerator?

### FinOps Accelerator Info

**Pricing:** Flat-fee pricing – regardless of size of cloud or potential savings opportunities. (Further scope to be determined upon execution of formal Statement of Work)

**Duration:** Eight 1-week engineering sprints.

Service offered in partnership with  APPTIO

Backed by 2 certified members of the FinOps Foundation. Unique, up-front value built directly into the solution.
